Healy Watch

# The Master Control Center

Coordinating the three pillars of your health, fitness and vitality.

Healy is a microcurrent medical device that has been cleared by the U.S. Food and Drug Administration only for local relief of acute, chronic, and arthritis pain and muscle soreness due to overexertion. Healy also has non-medical applications that use Individualized Microcurrent Frequencies (IMF) to harmonize your Bioenergetic Field. Always use your Healy in accordance with its Instructions for Use.

Healy Watch is intended to support vitality and well-being, and is not a substitute for medical advice, which can only be provided by a medical professional. The physiological measurements displayed on Healy Watch and in the Healy Watch App are designed to help you develop healthier habits and meet your fitness and wellness goals, to guide you in using the programs available in your Healy, and to alert you to information that may make a consultation with a healthcare provider appropriate. No claims are made that Healy Watch or Healy Watch App readings are diagnostic of the presence or absence of any medical conditions.

The content displayed by the HealAdvisor App does not constitute medical advice, which can only be provided by a medical professional. The Healy programs and other advice are recommendations that depend on user input. If you have or suspect you may have a medical condition, or if you are under the care of a healthcare professional, you should consult your practitioner before following these recommendations.

The content displayed by the Digital Nutrition App ("DNA" for short\*) does not constitute medical advice, which can only be provided by a medical professional. The substances, foods and Healy programs displayed are recommendations that depend on user input. If you have or suspect food intolerances, allergies, deficiencies or medical conditions, or if a supplement regimen has been recommended by a health practitioner, you should consult a physician or other healthcare professional before following these recommendations.

\* "DNA" stands for "Digital Nutrition App" and should not be confused with genetic testing, which is not provided by Healy.

# Cell Membrane Potential Model

According to Robert O. Becker  
and Bjorn Nordenstrom

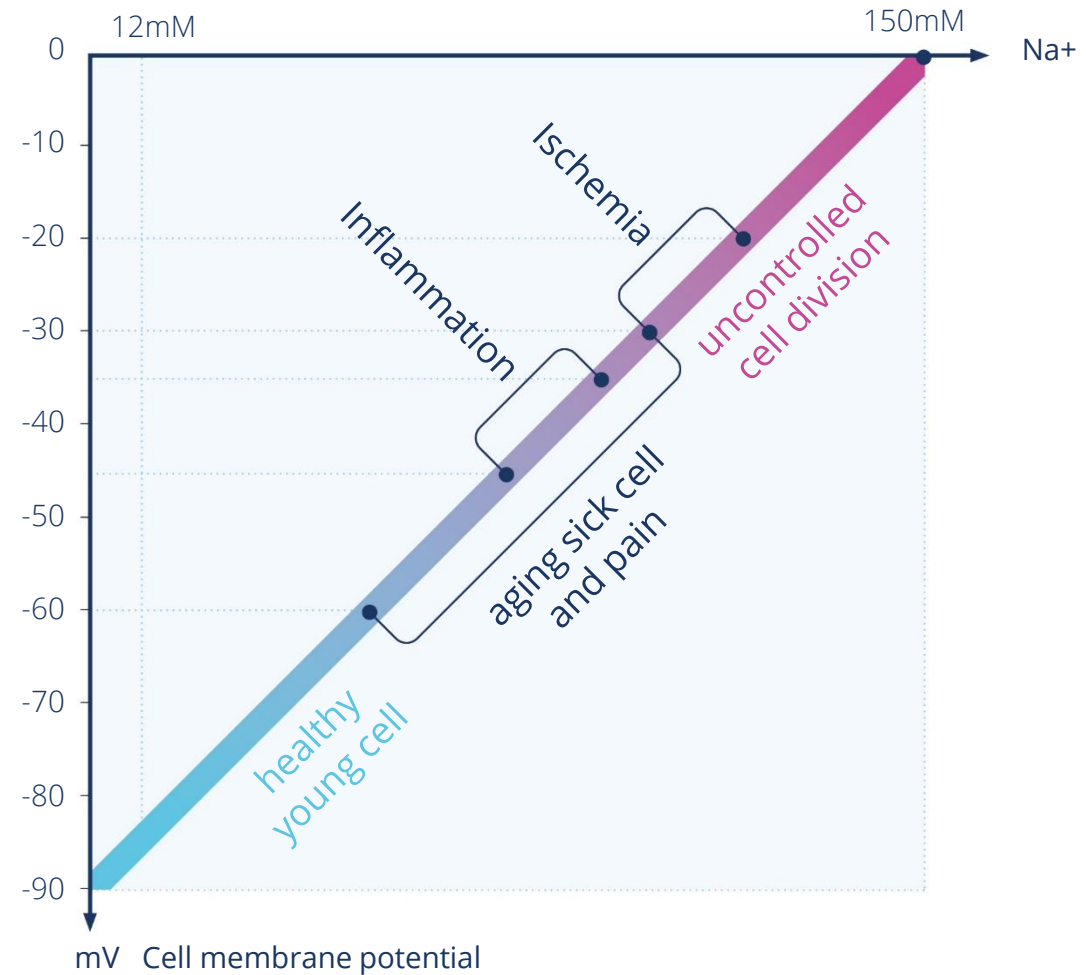

**Prof. Robert O. Becker**

Orthopedic surgeon and expert in electrotherapy, author of the modern electromedical 'Bible', 'The Body Electric' (1985).

**Prof. Björn Nordenström**

Professor Emeritus of Radiology at the Karolinska Institute in Sweden, former Chairman of the Nobel Prize Committee for Medicine.

# The Cell

The delivery of microcurrent with frequencies has been found to increase membrane potential and ATP production.

# Positive Effects of Microcurrent

according to an animal study by Ngok Cheng et al.\*

## Increased **ATP production**

up to **500 %**

ATP (adenosine triphosphate) stores energy in the cells, similar to gasoline in the gas tank of a car. ATP is produced in the cell by the mitochondria. The mitochondria are the ATP-producing "power plants" in each cell of the body.

## Increased **protein synthesis**

up to **70%**

Protein synthesis is the process by which proteins are formed to build cells. It means the creation of physical life, following the central blueprint which is stored as DNA in each of our cells.

## Increased **amino acid transport**

up to **40%**

Amino acids are the building blocks for protein synthesis.
